Safety Training

CPR, AED and First Aid Courses

Courses in Adult, Child and Infant CPR (cardio pulmonary resuscitation), AED (automated external defibrillator) and First Aid include hands-on practice and real-life scenarios. First aid course also includes Bloodborne Pathogens Training. Learn skills necessary to prevent, recognize and provide care for sudden illness and injuries until more advanced medical care arrives. Courses meet OSHA guidelines.

Babysitter's Training

This is a one day class that will prepare ages 11-15 year olds for babysitting. They will learn first aid, nutrition and baby care.
